

Mrs. Sally Blickhan

Computer Class

24 years with St. Peter School

24 years teaching experience

I began teaching in 1993 as a 7th and 8th grade math teacher at St. Peter School. In 1995, a position in the computer lab became available and I have continued in that position..

I believe in as much “hands on” activities as possible. I love it when a student has the opportunity to apply the concepts they have

learned. Technology offers students another way to learn, as well as another way to demonstrate what they have learned.

The unique learning opportunities that are offered and provided in my classroom are internet exploration and research opportunities, as well as real-time data collection. Technology also allows us to

use simulations and manipulatives. Activities in the computer lab are planned to reflect what is being taught in the students’ regular classroom.

What I like most about teaching at St. Peter School is that my co-workers are wonderful. We are all one family.

My teaching style:

I believe in a very “hands-on” learning environment that builds confidence with the concepts that have been learned.

Get to know me...

I received a B.S. in Education, from University of Missouri-Columbia, and an M.S. in Education from Southwest Baptist University, with an

emphasis in Instructional Technology.

Prior to teaching at St. Peter School I worked as a travel agent and in radio advertising sales.

I am married to Mike Blickhan, and we have a daughter, Sarah. We own an adorable greyhound named Barney. I love to travel, read, eat, knit and bicycle.
