

Mrs. Denise Hufendick

Fourth Grade

36 years with St. Peter School

36 years teaching experience

1995 Recipient:
Golden Apple
Award

What I like best about teaching at St. Peter School is working with the students, parents, and staff. We can pray and talk about God, and I admire the faith and values that are visible in our school community.

I expect my students to achieve academic success. At the same time, I do my best to help my students

with any learning challenges they may encounter.

I look for the best in the children in my class; I show them respect and I look for their respect in return.

Some of the unique learning opportunities provided to students in my classroom are writing book reports and presenting book talks. I

also work to develop their interests in science and social studies topics.

Fourth graders take on the responsibility of being Mass Buddies with Kindergarteners.

My teaching style:

I work to help my students with any learning challenges they may encounter and look for the best in each of the children in my class.

Get to know me...

I was also a student at St. Peter School as well as Quincy Notre Dame. I received my Bachelor of Science in Elementary Education from Culver-Stockton College.

Prior to teaching 4th grade at St. Peter School I also taught 2nd grade for 10 years and 3rd grade for 11 years. While teaching 3rd grade in 1995 I was the recipient of the WGEM Golden Apple Award.

My husband Kent and I have two daughters, a son-in-law, and two grandchildren.

I enjoy singing, playing the guitar and piano, and reading. My husband and I love to travel.
